DETAILED ACTION

Claims 1-39 are pending in the application.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Due to the numerous variables in the claims, e.g. Q, G, Ar¹, Ar², Ar³, R¹, R^{2a}, R^{2b}, R⁶, R^{6a}, Het, etc., and their widely divergent meanings, a precise listing of inventive groups cannot be made. The following groups are exemplary:

Group I. Claims 1-3, 8, 12-18, 25-31 (in-part), drawn to products of the formula wherein Q is Ar²; and R¹ is Ar¹.

Art Unit: 1626

Group II. Claims 1-3, 8-11, 13-20, 25-31 (in-part), drawn to products of the formula wherein **Q** is R^{6a} ; and R^1 is a monocyclic heterocycle.

Group III. Claims 1-8, 12-18, 21-23, 25-31 (in-part), drawn to products of the formula wherein **Q** is pyrrolidinyl substituted with R^6 ; and R^1 is Ar^1 .

Group IV. Claims 1-8, 12-18, 21-31 (in-part), drawn to products of the formula wherein **Q** is piperidinyl substituted with R^6 ; and R^1 is Ar^1 .

Group V. Claims 1-3, 8-11, 13-18, 25-31 (in-part), drawn to products of the formula wherein **Q** is Ar^2 ; and R^1 is a monocyclic heterocycle.

Group VI. Claim 32 (in-part), drawn to a method of using products of the formula wherein **Q** is Ar^2 ; and R^1 is Ar^1 .

Group VII. Claim 32 (in-part), drawn to a method of using the products of the formula wherein **Q** is piperidinyl substituted with R^6 ; and R^1 is Ar^1 .

Art Unit: 1626

Group VIII. Claims 33 (in-part), drawn to a process of preparing products of the formula wherein **Q** is Ar^2 ; and R^1 is Ar^1 .

Group IX. Claims 33 (in-part), drawn to a process of preparing products of the formula wherein **Q** is R^{6a} ; and R^1 is a monocyclic heterocycle.

Group X. Claims 34-39 (in-part), drawn to products of the formula (VII-a) wherein **Q** is pyrrolidinyl substituted with R^6 ; and R^1 is Ar^1 .

Group XI. Claims 34-39 (in-part), drawn to products of the formula (IX-a) wherein **Q** is piperidinyl substituted with R^6 ; and R^1 is Ar^1 .

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Again, this list is not exhausted as it would be impossible under the time constraints due to the sheer

Art Unit: 1626

volume of subject matter instantly claimed. Therefore, applicant may choose to elect a single invention by identifying another specific embodiment not listed in the exemplary groups of the invention and the examiner will endeavor to group the same.

The claims herein lack unity of invention under PCT Rule 13.1 and 13.2 since the compounds defined in the claims lack a significant structural element qualifying as the special technical feature that defines a contribution over the prior art. The compounds claimed contain a 2-amino-benzimidazole ring, which does not define a contribution over the prior art. See, for example, CA Registry No. 934-32-7 in CA 29:16897 (1935). The substituents on the 2-amino-benzimidazole ring structure vary extensively and when taken as a whole result in vastly different compounds. Accordingly, unity of invention is considered to be

Art Unit: 1626

lacking and restriction of the invention in accordance with the rules of unity of invention is considered to be proper.

Additionally, the vastness of the claimed subject matter and the complications in understanding the claimed subject matter imposes a burden on any examination of the claimed subject matter.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in

Art Unit: 1626

the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
